## essCert Password Change Guide

## **Password Retrieval Process**

On 29 September 2023, all passwords that did not comply with our updated security standards were reset to system-generated random passwords. If no action to retrieve a password was taken by the above date, a new password needs to be retrieved in order to access essCert:

1.) Access the <u>essCert login page</u> and click on 'Forgot your password? Click here to retrieve your log in details.'

	Click here to log in to ess	Cert New Zealand				
	For access to the eCertify Archive c	ick here (all countries, excluding New Zea	land)			
	For access to the eCertify New Zeal	and Archive click here				
					_	
	Previous Notices:					

Note - If you are accessing essCert via an alternative/custom login page, please follow this link instead to retrieve your password: <u>https://www.tradecert1.net/retrieve/</u>

2.) In the next screen, please input your email associated with your essCert account in the relevant field, so that your system-generated random password can be sent to you via email.

Online Document Certification	
Retineer Your Login Details	
Color year small address, then click the farmers butten. Year loger will be reset and seen via errori.	

3.) Once you receive the email containing your system-generated random password, you will be able to login. We recommend you change your password to one of your choosing after the first login.

## **Password Change after login**

## Update system-generated random password to one of your choosing

- a) Click on LOGIN on the essCert webpage
- b) Input your current username and password
- c) Click on My Account (see screenshot below):
